Informed Consent and Request for Naturopathic Medical Care and Acupuncture

As a patient I have the right to be informed about my health condition(s) and recommended treatment. This disclosure is to help me become better informed so that I may make the decision to give, or withhold, my consent as to whether or not to undergo care with Dr. Kahlen Pihowich, ND, having had the opportunity to discuss the potential benefits, risks and hazards involved.

I, _______________________________, hereby request and consent to examination and treatment with Naturopathic medicine and acupuncture by Dr. Kahlen Pihowich, and/or other licensed doctors of Naturopathic medicine or licensed acupuncturists serving as backup for her, hereafter called allied health care provider. I can request that students and preceptors not be included in my evaluation and treatment.

I understand that I have the right to ask questions and discuss to my satisfaction with Dr. Kahlen Pihowich, and/ or with the allied health care provider, providing backup:

1.) My suspected diagnosis(es) or condition(s)
2.) The nature, purpose, goals and potential benefits of the proposed care
3.) The inherent risks, complications, potential hazards or side effects of treatment or procedure
4.) The probability or likelihood of success
5.) Reasonable available alternatives to the proposed treatment procedure
6.) Potential consequences if treatment or advice is not followed and/ or nothing is done

I understand that a Naturopathic evaluation and treatment may include, but are not limited to:

- Soft tissue and osseous manipulation (including Naturopathic/osseous manipulation of the spine and extremities)
- Dietary advice and therapeutic nutrition (including use of foods, diet plans, nutritional supplements and intra-muscular vitamin injections)

Substances may be given in the forms of teas, pills, creams, powders, tinctures which may contain alcohol, suppositories, tropical creams, pastes, plasters, washes or other forms
- Homeopathic remedies (highly diluted quantities of naturally occurring substances)
- Hydrotherapy (use of hot and cold water)
- Counseling (including but not limited to visualization for improved lifestyle strategies)
- Bowen therapy (gentle, non-forceful physical therapy)

The scope of practice of acupuncture is outlined below. I understand that traditional oriental medicine and acupuncture evaluation and treatment may include, but are not limited to:

- Acupuncture (insertion of specialized disposable stainless steel sterilized needles through the skin into underlying tissues at specific points on the bodies surface)
- Moxa (indirect or direct burning of herbal material in the form of a loosely compacted herb or stick
