Body Treatments

60 Minute Treatment	\$175
Ice has been known to bring down inflammation and prevent swelling in sports injuries, but now scientists have shown they could also help people lose inches. Simply applying ice to a fatty area like the thighs or stomach can burn away hard-to-shift calories. The cold works by triggering the body into turning flabby white fat into calorie burning 'beige' fat.	
With IonCleanse	\$200
Multiple Treatments without IonCleanse	\$150
Multiple Treatments with IonCleanse	\$175
Full Body Exfoliation & Hydration	\$100
